WHERE YOUR SUPPORT GOES

Who is the SDFLC?

The San Diego Financial Literacy Center (SDFLC) enhances the financial IQ of San Diego County residents with a focus on youth, military and low-moderate income families. The financial literacy of our clients is enhanced through free education seminars and workshops offered throughout the County.

Since opening the doors in January 2014, the SDFLC has dedicated countless hours and has helped over 106,000 people in the San Diego area through a variety of free workshops, outreach efforts, and one-on-one consultations, of which almost half are military personnel and their families. We have also provided \$60,000 in financial boosts to military families.

Boost For Our Heroes is a program within the San Diego Financial Literacy Center geared towards active duty, transitioning, and veteran military members in which the focus is to provide them with financial education. Through a variety of workshops, outreach efforts, and one-on-one consultations with our partners, our goal is to help our men and women of the Armed Forces become financially fit. Financial problems are the number one cause of loss of rank, removal of security clearance, divorce, and violence amongst military members. Our mission is to break the cycle of money mismanagement and help these men and women develop the habits needed to succeed both in and out of the military.

Each quarter, an impartial panel will select one constituent who will be awarded a \$3,000 stipend due to financial hardship(s).

The SDFLC's Short-Term and Long-Term Goals with Boost For Our Heroes

A short-term goal is to continue to provide information, education, and training that drives the financial stability of the military members of San Diego County regardless of age, rank, or status.

A long-term goal is to increase financial literacy by helping them better understand how to manage their finances, create strong credit profiles, borrow wisely, and plan for retirement.

Collaboration

The key to success for the SDFLC is the collaboration with community, corporate, military, and educational partners throughout San Diego. Financial Literacy affects us all and by developing strong strategic partnerships that focus on providing real, relevant, and topical financial education in a culturally competent manner, the SDFLC and their partners will have a lasting impact on the military community in San Diego County.

Outcomes

The SDFLC currently tracks constituents via survey, quarterly contacts, and regular touch points to ensure curriculum and education outreach. Technological advancement and video inclusion are the benchmarks of SDFLC. Combined with a strong, sustainable messaging and awareness campaign, the SDFLC plans to bring life-long change to our military constituents. Helping them increase assets, decrease debt, and increase their credit score are just some of the goals that the SDFLC hopes to achieve this year and beyond.

100% of all sponsorships are reinvested into the Boost For Our Heroes program.
